

# ULTRA-HIGH PERFORMANCE GENERAL PURPOSE ULTRASONIC CLEANER

For Dental, Medical, Laboratory and Jewellery Use

## HIGH EFFICIENCY

DP2300 is a high performance and heavy-duty ultrasonic cleaning powder. It is both fast acting and long lasting. It offers superior performance at a savings of money, time and space.

## PORTION-PACKAGED UNIQUE POWDER FORM

Supplied in a **bulk dry powder** form, **DP2300 EZ Scoop** is easy to store, handle and use. In its bulk powder form, **D2300** comes to you in a convenient, waterproof, air tight, plastic container, supplying two pounds (908 grams) of concentrated cleaning powder and a measuring scoop. This economical concept provides enough powder for up to **75 gallons** of cleaning solution, while eliminating costly shipping charges associated with shipping water weight.

## SAFE/MILD

**DP2300** is completely safe to handle, mild to operator hands and biodegradable. No acid, caustic or fuming problems. It is **odourless**, **ammonia-free** and **non-flammable**.

## EASY TO USE PORTION DOSED

Each scoop of concentrated **DP2300** powder generates up to 1 gallon of general purpose cleaning solution. Add directly to ultrasonic cleaners with a 1-quart tank capacity or more. Simply fill the tank with warm to hot tap water and sprinkle 1 scoop of DP2300 powder around the tank. Activate the ultrasonic cleaner to thoroughly dissolve the powder. Powder will dissolve in seconds. For large tank capacities or difficult cleaning applications, a second scoop of powder can be added. Cleaning time is 1-5 minutes. Rinse objects thoroughly with tap water after cleaning.

## MULTI-PURPOSE

**DP2300** is truly a multi-purpose product that cleans a wide variety of articles and contaminants. It cleans metals of all types including aluminum and magnesium (if rinsed promptly) plastics, rubber, glass and porcelain. Some of the more common contaminants and articles are listed below.
